

COURSE : ADVANCED DIPLOMA IN CIVIL ENGINEERING

S/N	LECTURER NAME	QUALIFICATION	CONFERRING INSTITUTE	MODULES TAUGHT
1	Sundaram Pravveen (Part-time)	Bachelor of Science in Construction Project Management	Heriot-Watt University, United Kingdom	1. Analytical Methods for Civil Engineers 2. Advance Construction Technology 3. Structural Design & Analysis II 4. Project Management 5. Site Surveying and Geology 6. Employability & Professional Development Skills 7. Construction Materials
2	Kannan Narayanan Chandran (Part-time)	Bachelor of Science in Mathematics	Madurai Kamaraj University, India	1. Analytical Methods for Civil Engineers 2. Advance Construction Technology 3. Structural Design & Analysis II 4. Project Management 5. Site Surveying and Geology 6. Employability & Professional Development Skills 7. Construction Materials
3	Ishak Bin Hayat (Part-time)	Bachelor of Science in Construction Project Management	Heriot-Watt University, United Kingdom	1. Analytical Methods for Civil Engineers 2. Advance Construction Technology 3. Structural Design & Analysis II 4. Project Management 5. Site Surveying and Geology 6. Employability & Professional Development Skills 7. Construction Materials
4	Mohamed Ismail Sujavudeen (Part-time)	Bachelor of Engineering in Civil Engineering	University of Madras, India	1. Analytical Methods for Civil Engineers 2. Advance Construction Technology 3. Structural Design & Analysis II 4. Project Management 5. Site Surveying and Geology 6. Employability & Professional Development Skills 7. Construction Materials
5	Thendral Suganya T (Part-time)	Master of Engineering in Multimedia Technology Bachelor of Engineering in Electrical and Electronics Engineering	Anna University, India	1. Analytical Methods for Civil Engineers 2. Project Management 3. Employability & Professional Development Skills
6	Myat Khin (Part-time)	Bachelor of Science in Construction Project Management	Heriot-Watt University, United Kingdom	1. Analytical Methods for Civil Engineers 2. Advance Construction Technology 3. Structural Design & Analysis II 4. Project Management 5. Site Surveying and Geology 6. Employability & Professional Development Skills 7. Construction Materials
7	Rahul Dev (Part-time)	Masters of Science in Computer Control & Automation	Nanyang Technological University, Singapore	1. Analytical Methods for Civil Engineers 2. Advance Construction Technology 3. Structural Design & Analysis II 4. Project Management 5. Site Surveying and Geology 6. Employability & Professional Development Skills 7. Construction Materials
8	Kumar Hitesh (Part-time)	Masters of Science in Computer Control & Automation	Nanyang Technological University, Singapore	1. Analytical Methods for Civil Engineers 2. Advance Construction Technology 3. Structural Design & Analysis II 4. Project Management 5. Site Surveying and Geology 6. Employability & Professional Development Skills 7. Construction Materials
9	Eldhode Kalloorkaran Abraham (Part-time)	Bachelor of Engineering (Electronic and Electrical Engineering)	University of Sunderland, United Kingdom	1. Analytical Methods for Civil Engineers 2. Advance Construction Technology 3. Structural Design & Analysis II 4. Project Management 5. Site Surveying and Geology 6. Employability & Professional Development Skills 7. Construction Materials
